Ofsted Report

On 02/12/2019 we were inspected by Ofsted. All went very well and the inspector said that we were a good setting.

- The report states that children show they feel safe and secure and that staff get to know the children and their families well.
- Staff are good role models, children's communication and language are promoted well.
- The children's welfare is a strong focus for the team.
- The staff implement an effective curriculum to help children make good progress in their learning and development.

However because Ofsted were not notified of the changes in committee members we were marked down to "requires improvement".

This means that we will have to be inspected again within a year.

The committee have acted quickly on this matter and have all contacted Ofsted with their details.

If you cannot get online I have some hard copies of the report here that you can read through.
